FIGO XXVI
WORLD CONGRESS
OF GYNECOLOGY
AND OBSTETRICS

Brand Guidelines

Logo

The event logo is made up of the wordmark and the symbol.

The symbol combines a female profile looking forwards, into the future, with the distinctive shapes of a maple leaf. The leaf is taken from the Canadian flag and is an easily recognisable symbol of Canada.

The secondary versions of the logo include additonal information about the congress –dates and location in Montréal.

Primary logo

Secondary logo

Colours

The colour palette is based primarily on red tones. This reflects the colours found on the Canadian flag, as well as the USA and Mexico. The blues are found on the USA flag, with the core FIGO green reflecting the green on the Mexican flag.

Red is the predominant colour on all materials. The palette can also be used in typography to highlight key information and with illustrations.

Colours - Usage

We have highlighted some colour combinations that work when using text over a background colour, or using the graphic device.

While other primary colors may be used, our preferred choices are dark or light red paired with white text to ensure clear legibility.

Typography

We use the typeface Futura PT. It is a contemporary sans serif, which is easy to read and gives our materials a distinctive character.

Futura PT is available in a wide variety of weights, which can be utilised to deliver different types of messages, help to highlight specific content and create hierarchy within applications.

Type sizes may vary depending on the type of design asset. Please ensure all text is clearly readable, with body copy set at a minimum size of 10pt.

If Futura PT isn't available, the system font Arial can be used.

Graphic Devices

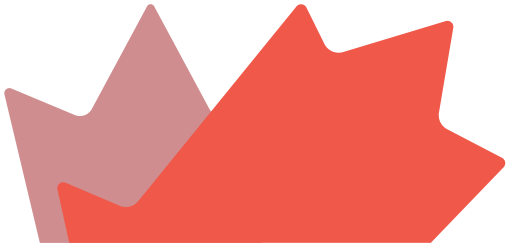

The maple leaf can be cropped in various ways to create a distinctive look and feel for the 2027 congress. These can be used on their own or layered to create areas for text and patterns.

When the shapes are layered, they can also change opacity to reveal more of the image below. The opacity should be set somewhere between 40 - 60%.
